"My kids loved your music! They've been singing some of the songs all week long. Thank you so much for a wonderfully entertaining evening for our family and for making such a special musical connection with my kids."

"I just wanted to let you know that we LOVED your show and CD. It's too bad there can't be more 'real music' in 'kids music.' The performances are great and the words are adorable."

"You should be proud of the product you're putting out there for all of the obvious reasons -the playfulness, the energy, the choruses perfect for singing along to. As an aging punk rocker, what struck me is that there's an edge to the music. Thanks for helping me keep both me and my son entertained."

"ScribbleMonster plays melodic poppy rock that would fit just fine on alt-rock radio, if only alt-rock radio played songs about monsters going 'RRRAARGH!' and imaginary friends."

-- Minneapolis Parent, December 2006
